

Cave

Mauro Lipparini

Various types of armrests, magazine racks or storage solutions in emery-leather can be included on the outermost sides of the body. Small features which contribute towards a styling and functional customisation as well as the way sit and use the sofa with a conventional or an alternative approach. The feet, which give the sofa an almost suspended appearance, are made of mat painted metal. The down and polyurethane padding is upholstered with removable fabric or leather covers.

UPHOLSTERY:

fabric

Capri leather

Ischia leather

Procida leather

Ponza Nabuk leather

Ponza Anilina leather
